

## REV. M. G. HODGE PASSED AWAY

Well Known Baptist Minister Dies at River Forest, Ill.

## WAS PASTOR HERE

Served Over Twenty Years in This City, and Was Very Popular.

## IS MOURNED BY MANY

A telegram was received by Mrs. Clarence L. Clark, at nine o'clock this morning announcing the death of Rev. Marvin G. Hodge, D. D., at his home in River Forest, Ill.

He was taken sick two weeks ago and gradually failed until at one o'clock this morning he passed away.

REV. M. G. HODGE

His daughter, Mrs. E. F. Welch, who lived with him, was at his bedside during his last moments.

## Brings Sorrow to Janesville

The death of Dr. Hodge will bring sorrow to a large number of loving followers in this city. During his long term as pastor of the First Baptist church of this city, extending over a period of twenty-two years, he made loving friends both in the congregation and in the city. His sermons were always fresh and abreast with the times. His brethren in the ministry have always looked up to him as a wise counselor, a safe leader and a master builder. His fraternal interest in the younger men of the ministry has always been to them an inspiration, and thousands of all ages and classes of his own and of other Christian persuasions have looked upon him as a friend. To know him was to love him. To come in touch with him was a benediction.

## Brief Biography

Dr. Hodge was born in Hardwick, Vermont, February 20, 1822. He was converted and united with the Baptist church in the fall of 1833. A few months afterward he felt a rising impression which soon grew into a settled conviction that he was called of God to become a preacher of the Gospel. He pursued academic studies at Derby, Vt., under the tuition of Herman Lincoln and afterwards of Alvan Hovey, both of whom became in later years so well known at the Newton Theological seminary. In June, 1843, he was ordained at East Charleston, Vt. He had pastorates at Colchester and at Hinesburg, Vt., and at Stillwater, New York, and in Oct. 1854, began a very successful pastorate of six and one-half years, with the Hanson Place Church at Brooklyn, New York. Here his health broke down, and in 1861 he sought recovery in the West. From June, 1861, to the spring of 1863, he ministered to the church in Beaver Dam, Wisconsin, where a precious revival was enjoyed.

Then followed two years of service

as District Secretary of the American Baptist Home Mission society for New England. He became pastor at Janesville, Wisconsin, February 1, 1865, and continued until September, 1871, after which he spent a winter with the Twenty-fifth St. church, New York City. And on May 1, 1872, began service as pastor of the First Church of Kalamazoo, Mich. This continued until the fall of 1878, when he came to Milwaukee, Wisconsin, where he became pastor of the First Baptist church of that city, and so continued until the spring of 1881, when he returned to Janesville, Wis., and entered on a second pastorate with his church, which continued over sixteen years, and ended June 1, 1897. However, the Doctor's ability as a preacher was still in demand in Wisconsin and for the second time he was called to minister to the church at Beaver Dam, where the school is located. This service was continued until May 1, 1900.

## Funeral Next Wednesday

In 1849 Dr. Hodge received the honorary degree of A. M. from the university of Vermont, and the same from Rochester university, in 1854. He received also the degree of D. D. from the university of Chicago in 1867. Few are the men who have carried these honorary titles more worthily. The Doctor has kept no record of the sermons preached, or addresses delivered, marriages solemnized, or persons baptized, but his life along all lines of usefulness has been more fruitful than any statistics can possibly tell.

He left surviving him four daughters and one son, Mrs. E. F. Welch, of River Forest, Ill.; Mrs. John Hatch of Washington, D. C.; Mrs. David Wilcox, Quincy, Ill.; Mrs. Clarence L. Clark, Janesville, Wis., and Fred Hodge of Kalamazoo, Mich. The funeral will be held from the First Baptist church of this city on Wednesday afternoon at 2 p. m. Interment will be in Oak Hill cemetery.

## A NEW PROPOSITION TO END THE STRIKE

Reports Current That Gompers, Authorized by the Strikers Will Call on Morgan.

Pittsburg, August 26.—The report current that Samuel Gompers and others will lay before Morgan a new proposition to end the steel strike, he being authorized by the Amalgamated to make further concessions. Shaffer says that there are fewer men at work today than last week.

Shaffer is further quoted this morning as saying that the men who are said to have gone to New York to see Morgan have no authority from him. He says that there is no peace in sight and that he can see nothing but a hard fight ahead.

The managers of the Painter plant claim to have more men working today than during last week.

Some remarkable changes in the conditions of the mills of the United States steel corporation are promised for the present week that will change the aspect of affairs considerably if carried out. It was stated on good authority today that before the end of the week those of the plants that have been operating on single turn would be run with full force and for the three full terms each day. Men enough have been secured for this purpose, the officials say, in spite of the claims of the strikers that the companies could not get enough men to operate their plants, and the managers of the various mills say they will be ready with all the skilled men required to start up the machinery and turn out a heavy tonnage.

## For State Treasurer

Madison, Wis., August 26.—Assemblyman W. L. McCormick of Hayward was in Madison last week, and while ostensibly on business, he took occasion to do a little boomer for his friend Hans P. Foley of Hayward, as a candidate for the republican nomination for state treasurer at the next state convention.

## FAILS TO SWIM ENGLISH CHANNEL; HALBEIN'S REMARKABLE EXPLOIT

He Struggles for Nearly Thirteen Hours in a Very Rough Sea—Comes Within Six Miles of the Feat Accomplished by Webb.

Dover, England, Aug. 26.—Mr. Holbein, the German sportsman who yesterday on the anniversary of Captain Webb's swim from Dover to Calais started from Cape Gris-Nez in an attempt to swim to Dover, narrowly escaped drowning. He covered the course to a point within six miles of Dover and then collapsed, after having been in the water twelve hours and forty-six minutes. The tug which accompanied him took him to a hotel in a semi-conscious, precarious state and subsequently, on the advice of his medical attendants, was removed to a hospital, where he lay for some time in a serious condition. It was found that his eyesight had been badly affected by the salt water. To-day, however, he had recovered, and he announced his intention to renew the attempt. His exploit was very remarkable, considering the roughness of the sea. He swam with a powerful stroke, alternately on his back and on his breast, making a good pace. The first six miles from Cape Gris-Nez were covered in two hours and twenty-five minutes. At sundown he found great difficulty in keeping a straight course.

Much of the time he swam with his eyes closed owing to the irritating effects of the salt water. Instructions to Holbein were shouted through a megaphone and powerful acetylene lamps were lighted to guide him. In the middle of the channel the wind was fresh and the water very rough. At the end of the sixth hour he was swimming well, but he began to complain of an injury to his left hip sustained on the rocks at Cape Gris-Nez, but not mentioned before. At this time he was about six miles off the British coast and Captain Lambert was of the opinion that he might make Dover on the next tide. He continued to swim well, mainly on his back. At 4:20 a. m. a council was held on the tug and it was decided to take him out of the water. He was turning like a top and hopelessly blind. If he had been left longer he must have gone down. Allowing for his zig-zag course it is estimated that he swam twenty-six miles. When he was taken from the water Dover was about five miles north-northeast. His next attempt he promises to make next year.

## GRANGE MEET AT THE BUFFALO FAIR

Four Million Mark in Attendance Was Passed Yesterday—Today is Municipal Day.

Buffalo, N. Y., August 26.—Officially this week at the Pan-American exposition is designated as "Grange week" and as furniture manufacturer's week. The four million mark in attendance was passed yesterday and the average attendance for the month of August has been 50 per cent greater than any previous month. The average attendance for the past week exceeded that of the previous week by 11,000.

Today will be municipal day. The programme will be presented in the Temple of Music and will include addresses by Randolph Guggenheimer, acting mayor of New York; and president of the greater New York council; Thomas S. Hayes, mayor of Baltimore; J. A. Johnson, mayor of Fargo; Raymond Prefontaine, mayor of Montreal; Samuel L. Jones, mayor of Toledo; and James K. McGuire, mayor of Syracuse.

The Porto Rican society begins its sessions tomorrow morning also. General Miles is expected to take active part in the deliberations of the organization.

## BOER COMMANDERS ARE DRIVEN BACK

Commandant Lotter Answers General Kitchen's Proclamation in an Unprintable Message.

Cape Town, Aug. 26.—Two Boer commandoes totalling 100 men, were headed off in an attempt to cross the Orange river into Cape Colony today. It is reported from the Fish river, Cape Colony, that Commandant Lotter returned an unprintable reply when Kitchen's proclamation demanding the surrender of all Boer leaders by September 15th was sent him under a flag of truce.

London, August 26.—Kitchen reports the capture and subsequent release of the British force of three officers and sixty-five men near Ladybrand. He says a superior force accomplished the capture after killing one and wounding four.

## Tramps Murder and Rob.

Litchfield, Minn., Aug. 26.—Tramps held up John and Paul McGrath, of Rush City, Minn., on a moving cattle train. The men resisted and John McGrath was shot dead. Paul escaped to the top of the train, but was overtaken, robbed and finally locked into a car.

## SULTAN WILL PAY FRANCE IN FULL

Paris, Aug. 26.—The Sultan, it is stated, has agreed to pay the quays commission seven hundred thousand dollars' indemnity for interference with its rights. For the seizure of lands belonging to Frenchmen the Sultan will pay an extra half million francs.

## MAY REPRIMAND CAPT. FORSYTH

Washington, August 26.—It is understood that the question of reprimanding Capt. James Forsyth, who had charge of the Key West Naval station during the Spanish-American war has been taken under advisement. Capt. Forsyth commented on the Schley-Sampson controversy in defiance of Long's order. He is quoted as saying that the fact of a junior officer being placed in command above his seniors is responsible for the whole business. In this he not only criticized Long but also President McKinley.

## LA FAYETTE FAIR IS OPENED TODAY

School Children to Compete for a Premium of \$250—Racing Program offers Purses of \$3,250.

Darlington, Wis., August 26.—The annual fair of the Lafayette County Agricultural society will open tomorrow and will last through Friday. Wednesday is children's day for which free tickets have been issued to all of the school children in the county. The premiums in the educational department amount to nearly \$250, and include \$5 for the best essay on "The Advantages of the Primary Election Law." In the general list \$2,300 in premiums are offered. The racing program offers purses amounting to \$3,250, closing Friday afternoon with the one and a quarter mile dash, for a purse of \$500.

## LIGHTNING STRUCK IN SEVERAL PLACES

Eau Claire, Wis., August 26.—The lightning struck the barn and sheds with their contents, including machinery, hay and grain. They were destroyed by fire causing a damage of \$2,000. Sperl's house was riddled by two bolts in quick succession. The loss is \$1,000.

Baraboo, Wis., August 26.—Daniel S. Jones' mill at Ablemans, was struck by lightning last night and burned. The loss is \$9,000.

La Crosse, Wis., August 26.—Lightning this morning struck the exposition building at the fair grounds, shattering the flag staff and breaking the windows and other portions of the structure. Two residences were also struck.

## ALFONSO PLANS TO MEET THE CZAR

Madrid, August 26.—King Alfonso plans a trip to Reims, France, where he will assist President Loubet and the Czar in the French naval maneuvers. It is possible that the trip will be extended to include a visit to Kaiser Wilhelm. General Wyler may accompany the king.

## KNIGHTS TEMPLAR AT LOUISVILLE

Louisville, Ky., August 26.—Predictions of rain arouse dismal forebodings for tomorrow's great parade of Knights Templar. The commanderies are pouring into the city and more will arrive during the afternoon and night. The city is beautifully decorated.

## WILL INVESTIGATE CHICAGO POLICE

Chicago, Ill., August 26.—An investigation of the charges of corruption in the Chicago police department began this afternoon. The only definite charges now before the board are those accusing three detectives of "taking" expense account, part of which Chief Detective Collieran is accused of having received, but it is the intention of the civil service commission to investigate the entire department.

## LABOR DESIRES TO EXCLUDE THE JAP

State Federation Will Petition Senators and Congressmen to Enact Chinese Exclusion Bill. Milwaukee, August 26.—The executive committee of the Wisconsin Federation of Labor will, Friday, petition the Wisconsin senators and representatives to vote for the re-

enactment of the Chinese exclusion bill, the operation of which will terminate next May. Further than this in the name of organized labor of Wisconsin, the executive committee will ask that the Japanese be also prohibited from coming into the United States and that the bill as re-enacted be framed so as to apply to them.

Fred Brockhausen, secretary and treasurer of the state federation, said yesterday: "It has been found since the enactment of the Chinese exclusion bill ten years ago that the evil at which the bill was aimed has not been entirely remedied, for the Japanese have taken the place of the Chinese and are working just as cheap. While the Japanese, as a class, are better citizens than their Mongolian neighbors, yet it has been found that the lower working classes are just as dangerous to American wage earner."

## PICKLE CROP IS A FAILURE.

Only One-Third of a Yield at Grand Rapids, and Prices are High.

Grand Rapids, Wis., Aug. 26.—This country is face to face with one of the greatest shortages in the pickle crop known in recent years, and in all probability a month later pickles will be selling at an advance of from 50 to 100 per cent. over the prices of a year ago. During the past week pickles have advanced \$2.00 a barrel and there is every prospect that another advance will be put into effect the early part of next week. Many pickle manufacturers are unable to obtain supplies of cucumbers for their needs owing to the short production all through the pickle-growing district.

## Hoyt Is Golf Champion.

Chicago, Ill., Aug. 26.—Phelps B. Hoyt of Glenview Saturday won the amateur golf championship of the west by defeating Bruce Smith 6 up and 5 to play.

## WEATHER BUREAU OFFICIALS TO MEET

National Convention Will Open at Milwaukee Tomorrow—The Session Will Last Three Days.

Milwaukee, Wis., August 26.—The second national convention of the weather bureau officials will open at the Hotel Pfister tomorrow morning. More than 100 men connected with the service, including all of the leading officials of the bureau, will be in attendance, together with a large number of distinguished guests. Among these will be Secretary of Agriculture James Wilson, Senator Hansborough of North Dakota, Congressman John Lamb of Virginia, Congressman James Wadsworth of New York, and several of the Wisconsin members of the house of representatives, including Representatives Davidson and Otjen. Senator Quarles is also expected to be present, as are ex-governors Peck and Scofield.

The convention will last three days, two sessions a day being held, one each morning and afternoon. It will close with a banquet on Thursday evening at the Hotel Pfister, which is expected to be a notable affair, as many of the guests of honor will speak.

## INTENDED TO KILL THE POPE AT ROME

New York, August 26.—A Rome dispatch to an afternoon paper says an anarchist was captured in the Vatican garden today. The man carried a revolver and a dirk and admitted that he intended to assassinate the pope. The man was discovered in a brush along the path always taken by the pope on his morning drive.

## A Sensational Suicide.

La Crosse, Wis., Aug. 26.—A. C. Mills, the son of ex-Senator Mills, a retired capitalist of Madison, was found dead in his room in the Cameron hotel at 2 o'clock Saturday afternoon with a rubber tube over his mouth and the gas jet turned on full force. He was about 50 years old and a prominent citizen of Madison, where he has a daughter living. He came here a week ago. No cause for his self-destruction is apparent.

## WRECK OF THE CANNING PLANT

Northwestern Switch Engines Created Havoc Saturday Evening.

## LOSS IS OVER \$60,000

Railroad People Confident They Can Replace Building Inside of 10 Days.

## NO ONE WAS HURT

A loss estimated at from sixty to seventy thousand dollars was caused the P. Hohenadel, Jr. Co., on Saturday afternoon by a Chicago & Northwestern switch engine.

It took less than three minutes for the engine to make a mass of wreckage of a two story and basement brick building 28x38, a steel tower forty feet high supporting a water tank fourteen feet in circumference by ten feet high and an engine room 48x48 equipped with three Freeman Mfg. Co's one hundred horse power boilers, a one hundred horse power engine made by the same company, and three Fairbanks-Morse pumps, capable of pumping 2,200 gallons of water an hour each.

## To Eat Some Pickles

The cause of all this trouble was a small switch engine which was left standing on the canning company's sidetracks while the engineer, John Baker and his fireman stepped into the pickle department of the works to get some pickles.

The works are built in the form of a hollow oblong with the south end open. On the north is the canning department 128x38 and a cabbage receiving room 32 x 48. On the east and extending south is the main building 228x48 and on the west the boiler room 48x48 and the pickle salting house 256x48.

The Northwestern siding runs in at the open space at the south and extends up to the canning department which extends across the end of the space at the north. Near the end of the track and just south of the canning department is the forty foot steel tower with the water tank on top.

## Engine Starts Itself

Shortly after five o'clock on Saturday afternoon there was standing on this sidetrack a short distance from the steel tower, a Chicago, Milwaukee & St. Paul car that had been loaded with salt. About one hundred and fifty feet south of the car stood the switch engine ready to take the car back to the railroad yards.

Suddenly without any human force being used, the engineer and fireman still being in the pickle room the engine started ahead.

It gathered headway as it advanced, and crashed into the empty box car and shoved it down the track over the bumper and through the steel tower and into the side of the canning building.

The shock twisted the steel rods of the tower like wires, and the tank containing five hundred barrels of water struck on the roof of the building about the time that the car crashed into the foundation. In an instant a section of the building 110 x38 was a mass of wreckage, and a portion of the wall falling onto the engine room wrecked all but the boilers and one of the steam pumps.

## Air Was Filled With Dust

The air was filled with dust and steam from the broken pipes and for some time it was hard to see what damage had been done. The engineer of the plant was in the boiler room, but was unhurt. He at once shut off steam and prevented any danger of an explosion.

The switch engine was still in motion, or was standing blocked by the wreckage with its wheels revolving when Engineer Joe Baker made his way through the wreckage and shut off steam.

The canning building was equipped with eight Trenches improved corn

(Continued on Page 4.)

## NOT ONE VOICE RAISED IN PITY FOR DOOMED WRETCH IN AGONY

Tennessee Mob Metes Out the Horrible Punishment of Burning at the Stake to a Negro.

Winchester, Tenn., August 26.—

Another negro has paid the penalty of his crime by death at the stake. Twelve miles from this city a mob of 6,000 people saw Henry Noles, who last Friday assaulted and murdered the wife of Charles Williams, a farmer, burned to death and in all that multitude there was not a man or woman to raise a voice in behalf of the doomed wretch. From miles around they gathered near the scene of the crime and the unanimous verdict was death by fire. Hundreds of farmers had brought their wives and children to see the horrible punishment meted out to the guilty man. Determination was written upon every face and there was no sign of pity. The crime had been the worst possible for a man to commit and the punishment should be proportioned to it.

## Crowd Surrounds the Jail

Noles was captured early yesterday morning near Cowan. He was brought to Winchester by his captors and placed in the county jail. Sheriff Stewart made haste to try to barricade the jail and protect his prisoner. A great crowd swept upon the jail

and took the negro to the scene of the crime. A procession three miles in length followed the mob to the Williams home. Arriving at a point in sight of the scene of the crime the negro was placed upon a stump and given a chance to make a statement.

## Laughs As He Faces His Fate

He mounted the stump stolidly and laughed as he began his statement. He said: "Tell all my sisters and brothers to meet me in glory. I am going to make that my home. Tell my mother to meet me where parting will be no more."

"Why did you kill Mrs. Williams was asked."

"I just done that because I had nothing else to do."

He finished his statement at 1:35 p. m. He was taken from the stump, carried to a tree near by, bound to the tree by chains and his body saturated with oil. At 1:40 p. m. a match was applied and instantly the quivering body was enveloped in flames. Fence rails were placed about the burning body and soon life was extinct. The negro made no outcry, at any time and died as stolidly as a stone.

## HANDLING AND CURE OF TOBACCO.

Wisconsin's dairy school has an entirely original and very practical feature—a special building, and equipment for giving practical instruction in the use, management and repair of dairy machinery. The students learn to fire and care for two large boilers, one heated with wood and the other with coal. The fuel is weighed and measured each day by the students, and all work of firing is done by them under the supervision of a competent instructor. On the first floor steam engines, boiler feed pumps, injectors, governors, steam gauges, etc., are taken apart and put together by the students. Separators are set up and connected with the line shaft by pulleys. The shafting is also hung and lined up by the students. On the second floor are benches and tools for the instruction in all manner of pipe cutting and fitting, belt lacing and tin soldering used in the factories. The mastery of these things makes the creamery or cheese factory man independent in his work. He is not at the mercy of every break or trouble that occurs in his machinery, and he is saved the time and expense of going to town or getting a machinist for every needed repair. It means a mastery of his business.

Three hundred creameries and cheese factories in Wisconsin are operated by students of the Wisconsin dairy school. A map locating each of these 300 plants is a striking exhibit to be shown at the Wisconsin state fair.

Wisconsin produced over 65,000,000 pounds of cheese in 1899—more than one-fourth of the entire cheese product of the United States. Green county alone shipped over 12,000,000 pounds of Swiss, brick and limberger.

Twenty-one hundred farmers gathered at the Wisconsin Agricultural college at Madison this summer in response to an invitation from the school. Two days, June 28 and 29, were spent in inspecting the equipment of the university and discussing agricultural matters.

The dairy products for Wisconsin in 1900 were: 80,000,000 pounds of butter, worth \$16,000,000; 60,000,000

pounds of cheese, \$6,000,000; milk and cream consumed by Wisconsin's 2,066,000 people, \$8,400,000; increase in stock from the 1,000,000 cows, \$2,500,000; total, \$32,900,000.

The milk cows kept on 160,000 farms in Wisconsin supply milk to 1,600 creameries and cheese factories. The value of the 2,800 creameries and cheese factories is \$7,000,000, one-fourth of the total amount of butter is dairy butter (made on the farm) and three-fourths is creamery butter. One-fourth of the cheese is Swiss, brick and limberger and three-fourths is cheddar.

Weighing and testing the milk of thirty-four cows on four farms showed the value of the butter from those cows' milk for one year to be as follows: Farm A—best cow \$58.20, poorest cow \$28.72; Farm B—best cow \$58.20, poorest cow, \$44.85; Farm C—Best cow \$60.72, poorest cow \$37.96; Farm D—Best cow \$55.49, poorest cow \$39.60. The pertinent question is asked in connection with this series of experiment, "Does each one of your cows give enough milk to pay for her feed?"

The Wisconsin dairy school uses about 3,000,000 pounds of milk per year in giving practical instruction to its students. The milk is furnished by 100 patrons in the vicinity of Madison. This gives the students a milk supply similar to that of 2,800 creameries and cheese factories of the state. The products are fancy print and package butter, full cream cheddar cheese, pasteurized milk and cream, Swiss, brick and limberger cheese.

Six cheeses made at the Wisconsin dairy school to show the amount and quality of the cheese varies with the richness of the milk, give the following results, 200 pounds of milk being used for each cheese: The milk having 0.1 per cent. of butter fat made a cheese weighing 11 pounds; milk having 1 per cent. of butter fat, a 13.4-lb. cheese; 2 per cent. milk a 16-lb. cheese; 3 per cent. milk an 18.3-lb. cheese; 4 per cent. milk an 21.6-lb. cheese; 5 per cent. milk a 24.8-lb. cheese. A duplicate of these cheeses shown at the Paris exposition won a gold medal.

## CHEESE IN THE BADGER STATE

The time is now at hand for the most laborious part of the tobacco grower's work. When the crop is securely harvested much of the anxiety attending the marketing of a crop is removed and risk reduced to the minimum. Under favorable conditions this part of the work usually progresses rapidly and smoothly. But in every case and every season there are certain things to be observed and ways to be followed that only the judgment and experience of the grower can determine. It is said that there are never two crops grown alike, so varied and subtle are the conditions that govern the different seasons.

**Taking the Crop From the Field**  
Very much of the final success of the crop depends upon the intelligent care and attention applied to this stage of the game, that covers in its various phases the greater part of the year. The removing of the crop from the fields to the buildings is a process that requires, perhaps, the most care and involves the greatest labor of any part of the proceedings, and on this depends much of the ultimate success. Besides the great danger of breakage in rough handling, there is always the liability of sunburn or overheating while the plants are wilting on the ground. Crowding the plants together on the frames or wagons, especially when only partly wilted, bruises the leaves, causing discoloration and spots when cured. The massing of too much bulk on the wagons in carting to the buildings, allowing the lath to be crowded together and to remain too long, especially when wet with dew or rain, which frequently causes the incipient stage of pole sweat—these and many other details must be attended to and avoided as much as possible.

The harvesting of the two distinct varieties, the broad leaf and Havana, differs very little in essential points, yet the latter must stand longer after topping than the former. It used to be the old rule with broad leaf growers, years back, to allow ten days after topping clean before cutting began. This is not considered enough nowadays, from sixteen to eighteen days being considered necessary.

**Ripening and the Use of the Lath**  
One of the best indications of ripeness, or the point when plants should be cut, is yellowing and dropping off of the bottom leaves. There is not much loss to the crop if this occurs, as these lower leaves are worth but very little, and their weight, if cured, is inappreciable. In these times the custom of hanging on lath has almost entirely superseded the old way of turning. Whether any point is gained here beyond the labor saving is a question, but for safety to the crop and the greater facility for handling, especially with limited help the lath have the advantage.

**Stalk Splitting.**  
The question as to whether the splitting of the stalk has any effect

on the crop has often been raised. That this causes a quicker evaporation of the juices of the plant, and hence a more rapid cure, there can be no doubt. This may be an advantage in some conditions of weather, and a disadvantage in others. I consider that the stalk has a great deal to do with quality of the leaves and their subsequent appearance, after it has been removed from the ground, provided the leaves remain attached to it through the curing process.

Every grower knows that leaves accidentally broken off in the field or stripped from seed plants and then hung up by themselves, do not cure as well as they do when on the stalk, either in quality, color or appearance. Here is a point that involves the tent-grown tobacco, which is yet somewhat problematical.

**Advantage of Thorough Wilting**  
Tobacco should be lathed as soon as sufficiently wilted to handle without breakage, then carried to the wilting frames, where it should remain, if the weather is clear, for a number of hours to insure thorough wilting and avoid breakage in passing up to high tiers in the sheds. Extremely hot sun or brisk winds will materially damage the outside plants during this time if not protected (when necessary) by a curtain or burlap. In very large tobacco five plants to the lath is deemed sufficient, yet nearly every grower puts on six; some put on seven when handicapped for space. The average grower intends to hang the lath nine inches apart, yet some say eight is enough. Here is where a thorough wilting in the field or in the frames comes in to advantage as it allows more circulation of air among the plants when first hung, with less liability of pole sweat, the worst evil that befalls a crop next to hail or frost. Care should also be taken to see that there are no green worms hung up with the plants, as they will continue to eat as long as the leaves remain green and often cause damage.

**Ventilation and Curing.**  
The thorough ventilation of the sheds is an important factor and requires a great deal of watchful care. As a rule the doors should be opened in the morning and closed at night, except where there is a liability of dry cure. When the process should be reversed. Too much light is thought to be conducive to the development of white veins, but this can not be well avoided. They are not liable to occur in a moist cure, or at a time when pole sweat develops. The length of time necessary for a crop to hang for perfect cure varies in different seasons and individual crops. Very ripe tobacco cures quickest. If well cured, there is very little danger of heating in the bale in early stripped tobacco if the bales are packed right and laid on a dry floor only one deep. There is more danger after the stalks have frozen.—W. F. Andross, Hartford County, (Conn.) in New England Homestead.

## OPINION OF OKLAHOMA LAND.

Discouraged Settler's Doubts of the Advisability of Burial There.  
"I am just back from El Reno, Oklahoma," said a Hartford man,

homeward bound on a Sound steam-er. "It wasn't my first trip to that region. I was there at what is known in Oklahoma as the second run, some years ago. I got some land on that occasion a few miles beyond

El Reno. By an arrangement with a speculator who lives there the entry was made in his name.

"From the time I left until my recent visit I had not been back, but occasionally I heard from my partner by letter. When I was there a week or so ago we drove out to our claim. With the exception of several graves the spot was as barren as when I made my run to it.

"My partner said in explanation that he had tried to make the soil produce but it was no use. He had even planted Canada thistle, but it wouldn't take root. Then a family from Indiana came along and settled on it.

"The family began dying until all were dead except the father. He wanted to take the bodies back to the States for burial, but my partner finally induced him to plant his dead on our claim. In fact he paid him to do it.

"The Indiana man was very reluctant, however, and said to my partner that in his opinion the land was so confounded poor that he doubted whether it would produce on resurrection day. In my opinion that country is not even good for graveyard purposes."

## MANY YOUNG GIRLS SMOKE.

**ASTOUNDING Confession Made by 13-Year-Old Annie Neff in Court.**

An astounding confession was made by Annie Neff, a 13-year-old girl cigarette fiend, in a New York City court. She said that all the girls in her neighborhood on the east side smoke cigarettes; that dealers continually violate the law compelling them to sell cigarettes in unbroken packages, and that parties of boys and girls gather on the docks and have "inhaling parties," the one holding the smoke in the lungs the longest collecting a tribute of a cigarette from each of the other contestants. She tells of her experience as follows:

"Us girls wanted to play with the boys, in the block, but the boys wouldn't let us unless we smoked cigarettes. It did not take me long to learn to smoke and inhale, and when the boys saw that I could they let me play with them. We bought them for a cent and could get them in almost any store in our neighborhood. There are some cigarettes that you can get for four for a cent. They are not as good as the others and I never bought them except when I was short of pennies.

"About a month ago my throat got bad and I went to Bellevue dispensary. They told my mother I was a cigarette fiend and my throat would stay bad if I didn't stop. I could have stopped all right, but it was pleasant to smoke, and I said, 'What's the use? I am going to stop now and be a good girl, but I'm not the only girl that smokes.' In New York all the girls in our block smoke cigarettes. Nearly every girl in school used to smoke, I guess. The boys teach them."

Roosters often crow over eggs they did not lay. Same with people who sell an imitation Rocky Mountain Tea, made famous by the Madison Medicine Co.'s advertising. 35c. Smith's pharmacy.

## THE NEW GOULD BABY.

It Has a "Layette" Richer than That of Many a Princess.

Miss Edith Kingdon Gould, the little daughter of Neptune, who took possession of George J. Gould's yacht Sybarite last Friday night, is the possessor of one of the loveliest layettes ever seen. The wardrobe provided for the comfort and adornment of the Gould baby reflects her mother's excellent taste and her preference for dainty, feminine things. Nothing is gorgeous or over-trimmed, but all is made of the finest fabrics, hand-wrought in delicate designs, and everything in abundance. But for the tiny rosebuds and forget-me-nots that ornament her basket of white wicker, lined with silk and trimmed with Valenciennes lace, everything is white.

There are little dresses of sheer muslin by the score—some lined with white silk for cooler days—cloaks and caps, sacques, booties and scores of articles for every occasion and every sort of weather. One tiny frock is made of linen cambric, sheer enough to be drawn through a ring, the entire front embroidered in white blossoms, vines and leaves, with fine lace inserted alternately. Another is made of lace needlework in strips over a taffeta slip, with sash of white satin ribbon.

Little Miss Gould's christening robe is the one worn by her brother, George Jay Gould, Jr., at his christening five years ago. It is made of white satin, completely covered with old Valenciennes lace as fine as cobweb over the skirt and waist, and forming little puffed sleeves that are caught up with white ribbon. The cloak for this dress is also of white satin lined with silk, with a large cape collar of lace, and the cap is made of Valenciennes lace and embroidered, and lined with white silk.

A white enameled, gold trimmed hamper, made like a trunk, contains all the baby's toilet articles, and this, too, is lined with marcelline silk and trimmed with Valenciennes lace. This little girl is said to resemble her mother more than any of the other children, and Mrs. Gould takes particular pleasure in the exquisite things that will clothe and surround her.—New York Herald.

Take Rocky Mountain Tea. See it exterminate poison. Feel it revitalize your blood and nerves, and bring back that happy, joyous feeling of boyhood days. 35c. Smith's pharmacy.

\$13.00 to Buffalo Pan-American and Return, \$13.00.

Tickets on sale daily via the Nickel Plate road, good returning ten days from date of sale. Especially low rates for fifteen and thirty day limits Chicago to Buffalo and return. Ticket at lowest rates to all points east. John V. Callahan, general agent, 111 Adams St., Chicago. Chicago city ticket office, 111 Adams street.

## HIRAM G. WILSON DIED LAST WEEK

Hiram Gerry Wilson, the first general agent of the Northwestern Mutual Life Insurance Company in this city, died on Tuesday last at his home, 4312 Laclede avenue, St. Louis and the funeral was held there today. Mr. Wilson was for some years previous to 1860, a resident of Milwaukee and when the Northwestern Mutual Life Insurance Company, then known as the Wisconsin Mutual Life Insurance Company, was moved from Janesville, where it was organized, to this city, Mr. Wilson was appointed as its first general agent, and was practically the only agent the company had at that time in the state. In speaking of the deceased today, Vice President Willard Merrill said:

"The statement in the Globe-Democrat that Mr. Wilson organized the Mutual Life Insurance Company of Wisconsin is an error. He did not organize any company here. He was, however, the first general agent the company had, and as such he appointed me a local agent for the company at Janesville, after the general offices had been moved to Milwaukee. He was engaged in the duties of general agent for several years and later was sent to Boston as the general agent for the company in New England states. Some years later he withdrew from the insurance business and located in St. Louis, where he was for a time engaged in street paving, under large contracts from the city. A few years ago he went to Toledo, Ohio, where he did some work for this company under our general agent there. Mr. Wilson was a most amiable gentleman, a man of fine address and strong character. His work in the early days of the company was of great benefit and he was always highly esteemed by his associates in the business and by the officers."

In compliance with the request of the deceased, his body was today cremated, and the ashes will be sent to Georgetown, D. C., there to be deposited by the side of one of his daughters, who died while Mr. Wilson was a resident of Washington City. At his bedside when he passed away were his wife and two daughters, the Misses Mabel and La Rena. A third daughter, Miss Winnie, was absent in Davenport, Ia. Mr. Wilson was born on a farm in Fairfax county, O., April 21, 1821, and he continued to reside there until he was nine years of age, when he located in Cincinnati and engaged in the business of portrait painting. Later he went to San Francisco where he lost many of his valuable pictures by fire.—Milwaukee Evening Wisconsin.

## Sealed Proposals for Church.

Sealed proposals are invited by the building committee of the Congregational society and will be received until 4 p. m., on the 5th day of September, by Mr. Fred M. Jensen, chairman of the committee, for the erection of the church in the city of Stoughton, according to plans and specifications of Messrs. Rawson & Paunack, architects. Proposals will be received for work as indicated in the specifications. Plans and specifications can be seen at the office of the architect, 25 North Plunkmeyer St., Madison, Wis., and 425 Hayes Block, Janesville, Wis., and at the store of Fred M. Jensen, Stoughton, Wis. Bids must be sealed and addressed to the undersigned and have the envelope marked, 'Proposals for Construction of Church at Stoughton, Wis.' The committee reserves the right to reject any and all bids and to accept any bids or combination of bids, which may be deemed to its advantage. By order of the building committee.

FRED M. JENSEN,  
Chairman,  
Stoughton, Wis.

WE KEEP THE QUALITY UP

## Tailor-Made Suits....

We will not expatiate at great length about them;—will simply say that a better opportunity to buy a Suit—a good, reliable, well made Suit—was never presented. We have some beautiful Suits and are willing to sacrifice profits, in fact lose a good bit on them to reduce stock. The Low Prices we are making for our very best Suits will surprise you.

**69c** When they're all gone you may regret..... that you did not lay in a supply of the \$1.00 and \$1.25 Shirt Waists that we are offering at 69c. There are about 200 of these Waists, both colored and white. Every woman knows how many times odd waists can be worn and how far 69c goes toward one if she has to buy the material and have it made. Other Waists 38c, 48c, 95c, \$1.48 were much higher.

## 15c Flannelettes

The most complete line of Flannelettes can be seen here. Stripes, figures, flowers, dots and Persian designs; the Persians being particularly desirable. Ours will bear the closest inspection and if you examine them carefully we think that you will find that they are better quality than others being offered at the same price.

## Neckwear

Several lines of ladies' neckwear we are closing out at greatly reduced prices. Ties at 15c and 19c marked down from 25c. Dainty embroidered and lace collars at 10c that were 15c and 20c.

## Do Not Forget

that although we are closing out many lines of summer goods; at the same time we are daily in receipt of New Things in the many departments of our store and are always prepared to show the Latest Novelties.

## Carpets

We placed large orders on fall carpets some weeks ago and are now receiving them. We can take good care of anyone wanting carpets.

## Linoleum

for fall we bought before the advance in prices and are now receiving many handsome designs including rich effects in the In-laid Linoleum.

No one should be without it. A case or keg of our

## LATE TELEGRAPHIC NEWS

## STRIKE PLEAS ARE FUTILE

South Chicago Steel Men Will Not Go Out.

## AID OF WOMEN ENLISTED.

Emma Lamphere, National Organizer of the Retail Clerks' Union, Makes a Stirring Address—Vice-President Davis Scores J. Pierpont Morgan.

Chicago, Aug. 26.—The South Chicago steel workers resisted the renewed efforts to call them out on strike yesterday afternoon. Only one man joined the two who were already out, and the rest of the men will return to their work this morning as if no strike agitation was haunting them. The mass meeting of union labor organizations, harangued by general officers of the Amalgamated Association and by representatives of a number of other trades, showed a very bitter feeling toward the men who refuse to strike, but it had no immediate effect on the steel workers, because practically all of them stayed away. There may not have been over a dozen steel workers all told in the audience. One result of the meeting will be, however, a woman's campaign to bring home to the wives and families of the men the odium that will follow refusal to strike, from the point of view of other union laborers. It was Emma Lamphere, national organizer of the Retail Clerks' union, whose words stung most sharply. Addressing the few members of the Amalgamated Association who had come to the meeting, she said: "You men of strong and honest labor are the pride of the world. This is the time to show the world whether you are men or mice. If you are mice remain in your trap. If you are men come out tomorrow and strike for your union." Then she urged the organization of all the women in the families of union workmen in South Chicago to bring their influence to bear on the steel workers for a strike. "You men of other unions," she said, "this strike is yours as much as the steel workers', for the vital principles of unionism are at stake. Get your wives and your daughters and other men's wives, too, to influence the men of the Amalgamated Association. Take the issue into their homes. Show them the disgrace which they will never get rid of. Make them strike."

Other speakers echoed this suggestion, and the cheers and yells of the audience, followed by the promises of both men and women given to Mrs. Lamphere when the meeting adjourned, make it certain that a campaign through women will be begun such as has rarely been seen. Among other things the meeting brought forth a prediction from Vice President W. F. Davis of the Amalgamated Association that the steel strike was but the first step in a carefully prepared plan of J. Pierpont Morgan to crush unionism in every line of industry over which he got control. "The steel men are picked as the first organization to be wiped out. That is why the opposition to us is so bitter, so uncompromising, so regardless of the possibility of arbitration. Next will come the poor old miners. If we are beaten. Then the carpenters and machinists, and after them one trade after another. If we are defeated we shall all become slaves, and life will no longer be worth living."

**Conkey Strike May Grow.**  
Hammond, Ind., Aug. 26.—Eleven electotypers hold the key to the situation at the W. B. Conkey company's plant here. To-day they will make a formal demand on the management to recognize their union, and if it is refused they will join the striking pressmen. The two bookbinders' unions say they will follow them to-morrow morning if any of their officers are discharged to-day. The printers were wavering yesterday and the indications are that if there is a general strike they will not remain in the plant. Deputy Marshals, with copies of the injunction issued by Judge Baker of the United States Court restraining the striking pressmen from picketing the Conkey plant, appeared in Hammond yesterday and served thirty-one of the strikers with copies of the writ.

**Will Marry Son of a Duke.**  
Newport, R. I., Aug. 26.—The reported engagement of Miss Helen Morton, daughter of ex-Vice President Levi P. Morton, to Count Boson de Perigord, younger son of the duc de Talleyrand of France, excites great interest in Newport society. It is understood the date of the wedding has been fixed for some time in the late autumn.

## WHY SUFFERS?

If you are troubled with constipation, biliousness, dyspepsia, or any other disorder of the digestive organs, Hostetter's Stomach Bitters will cure you. People who have suffered for years from "weak stomach" with out obtaining relief have found in this medicine a sure cure. It is a tonic and a blood purifier, and should be in every household.

THE BEST STOMACH BITTERS

HOSTETTER'S STOMACH BITTERS.

## MORE TROOPS FOR MANILA.

City Now Guarded by Less Than a Thousand Soldiers.

Manila, Aug. 26.—In the city of Manila there are now less than 1,000 effective soldiers and it has been decided to increase this number by four companies of infantry. The official reason for the increase is that the guard duty is too heavy for the present force. As a matter of fact, however, there is a feeling that, though there is no apparent prospect of trouble, nevertheless, in the event of an uprising in the future such as is always possible among the Malays, it would be better to have a sufficient body of troops available for such an emergency. General Chaffee says he considers the city of Manila to be perfectly orderly and he can see no prospect of an uprising.

## MacArthur Praises the Islanders.

Chicago, Aug. 26.—General Arthur MacArthur, the late commander in the Philippines, returns home strong in his faith in the power of American institutions to solve every problem in the islands. He is optimistic also concerning the native gifts of the Filipinos and their possibilities of development. He believes, moreover, that there is no army like the army of the United States, volunteers and regulars combined.

## Galesburg Plans Big Day.

Galesburg, Ill., Aug. 26.—Union laboring men in this part of the state are preparing to celebrate Labor Day, Monday, September 2, with one of the largest demonstrations ever held in this section. It is to be a twentieth century celebration and the exercises of the day will show what great strides have been made in the condition of the laboring man during the past 100 years. Three cities are mainly interested in the celebration, Galesburg, Kewanee and Canton, although all of the surrounding towns will be largely represented.

## For Over Fifty Years.

Mrs. Winstow's Sore Throat Syrup has been used for children while teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for all ailments. Twenty-five cents a bottle. Sold by druggists throughout the whole world.

## Attacks an Aged Jurist.

Pueblo, Colo., Aug. 26.—An unknown man entered the office of L. B. Gibson, former judge of the district court, and murderously assaulted the aged jurist with a revolver and a piece of lead pipe. Mr. Gibson was struck repeatedly about the head and body and is now lying in a dangerous condition.

## Alleged Slayer Captured.

Deadwood, S. D., Aug. 26.—W. H. Ward, who is accused of murdering the two Shepherd brothers a month ago near Pluma, was captured near Devil's Tower, fifty miles northwest of here. He refused to say anything to the sheriff about the murder. Feeling against the man is strong.

## WEDS MAN WITH BROKEN NECK.

Story of a Strange Nuptial Celebration at Atlantic City, N. J.

New York, Aug. 26.—Miss Eva May Salm was married yesterday at Atlantic City, N. J., to Joseph Matthews, quartermaster of the United States cruiser Newark, while the latter was dying with a broken neck. The nuptials were performed in a ward in the city hospital and tears were flowing while the ceremony was in progress and after it had been completed.

The marriage was performed at the solicitation of the bridegroom, who had been informed that he was about to undergo a dangerous surgical operation, which in all probability would prove fatal. He was unable to move his arm and when he was to clasp the hand of his bride it had to be lifted.

Before he left for the Philippines the girl who yesterday became his bride had promised to marry him. The wedding was set for two weeks from yesterday. It was hastened by the accident which befell the young man, who was but 23, last Sunday. He came to the shore for a surf bath. He was told there were seven feet of water under the board walk on which he stood and dived a distance of perhaps eight feet. There was but a depth of two feet, and when he struck he lay on the strand unconscious. When he regained his senses he was in the hospital a hopeless cripple.

## Massillon Times Reorganized.

Massillon, O., Aug. 26.—The Daily Times has been reorganized and placed in the hands of a strong local company organized by Mr. J. C. Deldrick, who is the principal owner of the Canton News-Democrat and the East Liverpool Crisis. The president is the Hon. Anthony Howells, democratic candidate for lieutenant-governor; vice-president, Otto E. Young, a prominent politician; secretary, M. B. Neff; treasurer, J. C. Deldrick. H. F. Harris, secretary of the News-Democrat Company, will have general charge of the Times property. The capital stock of the company is \$10,000, all paid in, and its prospects for success are flattering.

## Makes Machine Fly Half a Mile.

Bridgeport, Conn., Aug. 26.—Gustav Whitehead, the flying machine inventor of this city, who one night a week ago is said to have flown a distance of half a mile in his machine, at a height of fifty feet, says his next flight will consist of a trip to New York and return. For this purpose he is having a new machine built on his premises. The only difference in the two, he says, is that the new one will be built stronger and large enough to carry half a dozen persons.

During the latter part of the week Whitehead will take his present machine to Atlantic City, N. J., where he intends exhibiting it.

## Seize \$30,000 Worth of Cloth.

Burlington, Vt., Aug. 26.—Thirty-six bales of imported cloth, making nearly a full carload, have arrived in this city from Richmond, Vt., where it was seized by Collector Olin Merrill. The cloth was shipped from Montreal to Holyoke, Mass., and is valued at about \$30,000. It is subject to nearly its full value in duties.

## The cloth was ingeniously packed in a car of paper stock. The center was made up of the waste, and bales of cloth were placed at the ends, where they were less liable to be detected. No arrests have yet been made.

## How's This?

We offer One Hundred Dollars Reward to any person who can cure by Hall's Catarrh Cure. F. J. CHENEY & CO., Props., Toledo, O. We have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by him for them. ## SUNDAY SCHOOL RALLY THURSDAY

Promises To Be a Rousing Affair—Delegates from All Parts of the County.

The Rock county Sunday school rally in this city on Thursday next will be a rousing one. The Sunday school superintendents, throughout the county outside of Janesville are aware of the fact that this will be one of the most important rallies in the history of the association.

Delegates will be here from Beloit both by wagon and on the railroad. Evansville has chartered a special train of five cars and will bring an orchestra of twenty pieces. Milton and Milton Junction w. also send delegations and Johnstown will unite with them.

The Sunday schools of the towns of Center and Plymouth will make a good showing and will be accompanied by two drum corps. Thursday will be the banner day for the association and a number of prominent officers will be present and make an address.

Prof. E. G. Smith of Beloit college is president of the Rock county association but will not be present at the meeting as he is now in Denver on important business.

### LARGE DELEGATION GOING

Green County Fair at Monroe Will Be Second to None

What promises to be the greatest county fair ever held in the annals of Green county will take place at Monroe, September 4, 5, 6, and 7. Present indications are that a large delegation will be in attendance from Janesville. The train service is excellent and reduced rates will be in force.

The race program each day will bring there the best horses in this part of the county. The exhibits are being booked daily and promise to be on a large scale. Vaudeville acts of a costly nature are also on the program.

### Blacksmith's Picnic

The annual outing and picnic of the Horseshoers' association of southern Wisconsin which was billed to take place at Taylor's Park, Lake Koshkonong, a week ago last Saturday, miscarried in some of its arrangements. The program was for the several delegations to gather at Fort Atkinson in the morning, take the steamer, Uncle Sam, for a trip down the river and lake to the picnic grounds where dinner would be served. The steamer had proceeded but a short distance down the river when an accident occurred to the machinery of the boat putting it out of commission and the nail drivers and their friends were put ashore when they returned to Fort Atkinson and immediately got in telephonic communication with the supply headquarters at the lower end of the lake.

Thompson's livery was ordered to carry the refreshments to Fort Atkinson and arrived there about one o'clock, after the appetites of the hungry crowd were whetted to the sharpest edge. The picnic program was then carried out at the park in Fort Atkinson and about 150 horseshoers and their families passed an enjoyable day. —Edgerton Reporter.

### Announcement.

We beg to announce the opening of our new store, 63 West Milwaukee street, on Saturday, Aug. 31st, and extend a cordial invitation to all to attend and view our grand exposition of 5 and 10 cent bargains. We will offer some beautiful goods in china and glassware. During this opening sale of 6 days, the highest profit article will only be a dime. Bargain lovers will do well not to overlook this sale.

Tomatoes 20 cents per basket.  
Cucumbers, 1 cent each. Grubb.

### NEWS OF THE CITY IN BRIEF

Dance with Co. I at Armory hall on Tuesday evening.

J. T. Wright has a handsome photograph of the ocean front of Hong Kong, China, sent him by his brother, Henry Wright, who is a paymaster in the United States navy.

Dance with Co. I at Armory hall on Tuesday evening.

Tomorrow evening at Armory hall a dancing party will be held under the auspices of Co. I. Prof. Smith's full orchestra will play and a good time awaits all who attend.

The "Hobo Two-Step" as arranged and presented by Wood & Ward and the Blomere Sisters in "The Two Merry Tramps" is one of the most meritorious, and at the same time tuneful and comical musical numbers ever introduced in a farce comedy.

The Edgerton Electric Light Co. received Tuesday a 60 n. W. Warren alternator which will be placed at the Fulton power plant to displace the arc machine located there. When installed all arc lights will be taken on the incandescent circuits and the wire circuits so arranged that a part of the load during the heavy lighting hours will be divided between the machines at Indian Ford and Fulton or through switches thrown onto machines at either plant. This arrangement will give the light company the equivalent of two plants and in case of accident, high water, etc., has a machine in reserve that will carry the business uninterruptedly.

The semi-finals in the home tournament of the Mississippi Golf club will be played tomorrow afternoon on the club course. There will be four contestants in each of the three classes. The two winners in each class will play off the finals for the title on September 3rd. There will also be a mixed foursome tomorrow afternoon and the matches will be followed by a club supper and a dance in the evening.

The Milton band of twenty-five pieces has been engaged to play at the Janesville fair to be held next Tuesday at the fair grounds. They will render an excellent musical program.

The Ladies of the First M. E. church will serve ice cream and cake on the church lawn Tuesday evening, Aug. 27. Price of cream and cake, ten cents.

Ladies will be interested in the announcement of Mme. Ethereal, the face and form beautifier, which appears on page 4 this evening.

Remnants of best prints in dark dress patterns, chamber pink grounds, dark cardinal grounds and shirt patterns, we offer now at 4 cents per yard; worth 6 cents. Bort, Bailey & Co.

All members of Company I are hereby requested to attend drill on Monday night at eight o'clock sharp on August 26th. By order of Capt. Chas. F. Achterberg.

The Ferris Comedians will present their opening attraction, "The Plunger," at the Myers Grand tonight. There will be vaudeville specialties between the acts. A big crowd at popular prices is expected.

Janesville visitors to the Buffalo fair registered Saturday were: Harriet T. Carpenter, Mabel Jackman, Abbie Atwood, William Cannon, Carl F. Crust, Mr. and Mrs. A. A. and Fanny Jackson, Mr. and Mrs. B. B., L. C. and Burt B. Baker.

The Janesville fair to be held next Tuesday will commence with a program at 10 o'clock in the morning. Present indications are that a large crowd will be in attendance from Janesville and all sections of the county.

Another consignment of the famous Richheimer coffees has been received at Richter Bros.' grocery store. No 25-cent coffee on the market is the equal of this popular brand.

All children under twelve years of age will be given free admission to the Janesville fair to be held next Tuesday. This is a most liberal offer on the part of the fair management and will result in hundreds of children spending a happy day.

The racing feature of the Janesville fair will add greatly to the entertainment as the races have all filled with high classed horses in each class. In the free-for-all will be found such horses as "Cheerful Alcy," record 2:12; "Violet L." 2:13; and others of equal merit.

The most complete line of ladies' chateaufine bead bags ever consigned to a Janesville firm has been received by F. C. Cook & Co. The assortment embraces all sizes and all prices. They are not expensive and if one wishes to purchase the mountings only, F. C. Cook & Co. should please the most particular.

Richheimer's coffees range in price from 15 to 40 cents per pound. These coffees have flavor and strength that is not surpassed. The west side grocery firm of Richter Bros. are the local agents.

## HOW BIRMINGHAM STOLE SECOND BASE

The Davenport, Ia., Daily Leader of August 22 contains the following regarding Mike Birmingham, which will interest Janesville fans:

"If anyone who attended yesterday's game between the Davenport and Decatur clubs were asked what was the greatest wonder of the world, they would all have passed up the Niagara Falls, the Pyramids of Egypt and the Leaning Tower of Pisa and quickly responded, 'The stealing of second base by Mike Birmingham.' Even from Julius Lischer in the grand stand down to the small boy in the bleachers lost their equilibrium when in the sixth inning Mike actually stole second. It was the greatest event seen in the baseball arena during the entire season and for which the name of Birmingham will remain immortal to the fans of this city. It took the crowd several minutes to realize that the thing was over and then Mike was given an ovation. In the minds of the fans it was the uplifting of the hoodoo that has enveloped the home team for so long that even the most radical of them have forgotten."

"There was some talk after the game of having Birmingham indicted for larceny. When the matter was brought to the attention of County Attorney Lischer, that individual gave as his opinion that he charge should be grand larceny. Petit larceny would fit any other player added Julius, but in this case the full penalty must be exacted and Birmingham bound over to the grand jury, for as long as he has now stolen second base he is hereafter liable to steal almost anything. The public must be protected, so watch out for Mike."

### MADE EXCELLENT EXHIBIT

Wisconsin Carriage Company at the Inter-State Fair at Beloit.

An exhibit that the citizens of Janesville and Rock county may well feel proud of was made last week by the Wisconsin Carriage company of this city at the Beloit Inter-State fair.

The Wisconsin company does nothing by halves and the showing made in the Line City easily placed their display in the lead. The line of rubber-tired vehicles and runabouts was admired daily by the crowds that packed the spacious quarters that they occupied. The location accorded the Wisconsin company was an ideal one being centrally located and with easy walking distance of all the main attractions. Janesville people who visited the fair made it a special point to see the display which was in charge of M. C. Fish. Many sales were also made as the result of this display; the vehicles to be delivered as soon as manufactured. The Wisconsin Carriage company since entering the retail business here have sold a total of 1,500 vehicles. The greater portion of these have been shipped to distant points. The many factories of such a large array of carriages, bus, furnished work to a large force of men in the model factory building located at the corner of Milwaukee and Marion streets. With the employing of such a large force it is plain to be seen that such an institution is of great help in building up a city. This winter the factory will run with a full force. It is the intention of the company to have in the spring the most complete array of vehicles on hand ever shown by any one firm in this section of the West.

This week the Wisconsin Carriage company will make creditable displays at the county fair to be held at Darlington and Sterling, Ia. Next week displays will be made at the Evansville fair and also at the big Minnesota state fair to be held at St. Paul. The Wisconsin company will also make showings at fairs to be held at Elkhorn, Milwaukee and Mount Carroll, Ill.

No clue has been discovered of the parties that robbed James McCullough of \$125 at his home in Footville Friday night. The thieves were successful in covering up their tracks.

Special Round Trip Rate to New York City by C. M. & St. Paul Railway.

Daily from July 20th to Oct. 20th. For rates, limits and routes, with stop over privileges call at C. M. & St. Paul depot.

### A Remarkable Calculator.

Diamandi, a native of Pylaros, one of the Greek islands, is a remarkable calculator. After a mere glance at a blackboard on which thirty groups of figure are written he can repeat them in any order, and deal with them by any arithmetical process. It is said that he never makes an error in calculations involving billions, and he can extract square or cube roots with marvellous rapidity and accuracy. Diamandi writes poetry and novels in the intervals of business, and shows considerable intellectual capacity.

Cheap Rates to New York City and Return.

Excursion tickets will be sold daily until Oct. 20 to New York city and return with favorable time limits, allowing stopovers at Buffalo and other prominent points. For rates and other information enquire at C. & N. W. ticket office.

IF YOU WOULD DEMONSTRATE

that you have endeavored for the best, and have provided against the worst that can happen to those dependent upon you, let the possession of an Aetna Life Policy be your best witness.

## NEWS OF A PERSONAL NATURE

A. K. Kildow of Beloit is visiting local friends.

Mrs. W. H. Tapping of Delavan spent the day in the city.

H. L. Skavlen is down from Lake Koshkonong.

Nick Pilson of Edgerton was a Sunday visitor to this city.

Mrs. William Horn spent the day in Edgerton on business.

E. J. Carroll spent Sunday in Green Bay with his wife and son.

C. H. Bliven of Koshkonong was a visitor to this city yesterday.

F. C. Burpee and James A. Fathers spent Sunday at Lake Koshkonong.

Miss Edith Lundle is visiting friends at Menominee, Mich., for a few days.

Misses M. Coon and Grace Brown of Edgerton called on friends in this city yesterday.

Paul E. Faust of the Mahin Advertising company of Chicago, is in the city.

Clayton Tanberg is visiting relatives in Monroe for a couple of weeks.

Charles Barnard of Beloit, was in the city today, and viewed the ruins at the canning factory.

Miss Caribel Butterfield of Minneapolis, Minn., is the guest of Mrs. John G. Rexford, Sinclair street.

Mr. and Mrs. W. E. Nightengale, formerly of this city, have decided to return and take up their residence here.

John Kliedt of Cassville, Wis., one of the owners of the wrecked canning plant, arrived in this city last evening.

John Souiman and Mr. Stericker of this city, have made the purchases of costly vehicles of the Wisconsin Carriage company.

Miss Maude Nowlan is home from a pleasant trip to the Pan-American exposition at Buffalo. Miss Harriet Sanger, who accompanied her, also returned home.

Frank Hubbard with T. Buettner & Co., Chicago, and Bert C. Hubbard of the Chicago, Alton railroad, are visiting at the home of Geo. Hubbard and family.

Mr. and Mrs. James Earhart and daughter, Ruth, of Chrisman, Ill., are the guests of Mrs. Poorman, 213 South Academy street.

R. H. Barlow and wife and E. M. Hardy and wife of Chattanooga, Tenn., spent Saturday and Sunday at Delavan Lake, as the guests of Mrs. Milton Goff of Champaign, Ill.

Sheriff Maltress went to Beloit on Saturday night and brought back Mrs. Ravina Gormany, who is insane. He took her to the Rock county hospital for the insane.

Mr. and Mrs. P. J. Mouat are entertaining Mrs. Joseph Doe and children of Milwaukee at their cottage at Lake Geneva.

For one week only I will close out my entire line of millinery at cost. The latest fall styles. Mrs. A. P. Clark, adjoining J. M. Bostwick & Sons' store.

Arthur Ely of New York was in the city today looking up old landmarks. Mr. Ely is a son of Capt. Ely, who built the J. A. Hoskins house on North Bluff street. He left here thirty-nine years ago, when the Hyatt house and the big mill were standing. About the only people in the city he remembered were Miss Louise Peterson and J. T. Wright.

P. A. Marsh of Chicago came up Saturday night with several large orders for the canning factory in his pocket. He was much disappointed to find part of the plant in ruins.

Mrs. Nathan Dearborn and Mrs. A. C. Campbell and little daughter Bell leave tomorrow morning for a visit to Buffalo, Niagara Falls and Mrs. Dearborn's old home in Chautauque county, New York.

Miss Mildred Holloway, daughter of Mr. and Mrs. L. F. Holloway, was the hostess at a trolley party from 5 to 8 o'clock, in honor of Miss Estes Hardy of Chattanooga, Tenn. Ten young girls, the friends of Miss Hardy when she resided in this city, made up the party. After the trolley ride refreshments were served at the home of the young hostess, and enjoyed by all.

The Imperial band will have rehearsal this evening.

A man need not lay down his life in trying to lay up money.

## PREPARES FOR AN ACTIVE CAMPAIGN

Gov. La Follette "Buckling Up" on the Corporation Taxation Problem—To Speak at Co. Fairs.

Madison, Wis., August 26.—It is rumored that Governor LaFollette is not as ill as is generally reported, and that he is spending most of his time in "bucking up" on corporation taxation problems in order to be primed for a number of county addresses which he has been invited to make.

While the governor has been sick he has been able to do some reading and it has been along corporation taxation lines. He is anything, but well, however, and his friends have endeavored to persuade him to give up his strenuous work and take a brief rest. Being of a pugnacious disposition he has disregarded this advice. He is preparing himself for an active campaign until the next convention.

It is generally understood that he will stand for a renomination and that "Uncle Isaac" Stephenson will be his candidate for the United States senate in the place of John C. Spooner. Plans have already been laid to capture the next legislature.

It is expected that the governor will this week appoint a successor to George W. Bishop, as a member of the state board of control. The general impression is that the appointment will go to Milwaukee. The candidates most mentioned are J. J. Kempf of Milwaukee, Joseph Farr of Phillips and Dr. Lindsay of Chippewa Falls.

The time for the Evansville fair is drawing near. The track is reported to be in splendid condition and a number of horses are in daily training. Anyone who enjoys good racing will be sure to attend on Sept. 3-4-5. The soil on the track is such that it does not get muddy, but is fit to use immediately after a rain, and in a few hours is in prime condition.

## DELAVAN SEASON ENDS THIS WEEK

Has Been the Most Prosperous Year  
the Lake Has Ever Known—Sum-  
mer Girl Had Her Innings.

Delavan, Wis., August 26.—The present week will end the most prosperous season that Delavan lake has ever known, and everyone concerned has reason to be well pleased. Landlords who have rolled up handsome bank accounts in spite of the drought, have also some prospect of future good seasons to reward them for hard work and unwearied painstaking, as the majority of the guests now here will return next season.

The summer girl has had her innings, and in many cases her innings also. Many of them will return again, but not as summer girls. The summer young woman will have blossomed into the summer matron ere another season rolls around. At nearly every park on the lake not one but many engagements—not summer engagements merely—are reported.

Dodge County Veterans Meet  
Reeseville, Wis., August 26.—The Dodge County Veterans' association met here, Saturday. Senator J. M. Whitehead and Department Com-  
mander De Graff were the principal speakers. A very large crowd was present.

## OSSIFIED MAN IS DOOMED TO DIE

Eli Green's Body Will Literally Be a  
Stone Corpse—Life is Being  
Crushed Out of Him.

La Porte, Ind., August 26.—The remarkable malady of Eli Green, who has just returned to his home at North Judson after receiving treatment from medical experts, has been pronounced incurable. Green is going through the process of ossification. His body is rapidly turning to stone. The upper part of his stomach is as hard as rock, as is also the upper part of his arms and limbs. A knife can be run into his body at places without his feeling it. He has been baked in ovens heated at 120 degrees, but with little improvement. His heart is being gradually incrustated with a stony formation which sooner or later will stop its action. He no longer perspires and his weight is steadily increasing.

The extraordinary conditions in Green's case began about a year ago. The process of ossification was then slow. Physicians say that when life has been literally crushed out of the human frame Green's body will be literally a stone corpse. The medical experts who have examined Green say there is only one parallel case in medical annals and that was recently reported from Austria. The conditions which contribute to the phenomena of Green's case are an enigma to the medical fraternity.

## GERMAN VETERANS MARCH AT KENOSHA

Fourteen Cities Represented in the  
Line of Parade—31st Anni-  
versary of Battle of Sedan.

Kenosha, Wis., Aug. 26.—Five hundred German veterans representing the survivors of the army of Emperor William I., residing in southern Wisconsin, gathered in Kenosha yesterday afternoon to celebrate the thirty-first anniversary of the battle of Sedan, and to take part in the ceremonies of the annual reunion of the "Deutscher Krieger." Kameradschaft of southern Wisconsin.

With the veterans came from 3,000 to 5,000 people from the surrounding cities, who took part in the reunion and made it one of the greatest events ever held by the German veterans in the state. In the long line of marchers fourteen cities were represented, and in line were the representatives of sixty-five different companies, who had fought in the wars of Germany in 1871-72. There were many old men in line, and many of them wore the tattered uniforms which they had worn on the battlefield under the directions of the great emperor.

WILL LOCK OUT 20,000 MEN.

National Association of Brewers An-  
nounces War to the Knife.

New York, Aug. 26.—A circular has been issued by the National Association of Brewers, making the announcement of the commencement of war to the knife on the National Union of Brewery Workmen, commencing Sept. 1. The brewers ask owners to assist

them in bringing first, a general movement against the unions of brewery workmen; second, to bring pressure to bear on the government to withdraw the new tax on beer, and, third, to raise the price of beer, with the assistance of the state organizations of brewery owners.

The circular concludes with the announcement, "We will take action Sept. 1." On the other hand, the workmen have sent out an appeal asking their members to stand together. It is estimated that 20,000 men will be locked out.

Week at the Pan-American.  
Buffalo, N. Y., Aug. 26.—This is grange and furniture manufacturers' week at the Pan-American Exposition. The Porto Rican society began its sessions to-day. This is a municipal day, Wednesday. New York State Grange day, Thursday. Cuba day, and Saturday. Shriners' day. The attendance passed the 4,000,000 mark to-day. The average August attendance was 50 per cent greater than that of any previous month.

Robert C. Evans Is Dead.  
Minneapolis, Minn., Aug. 26.—Robert C. Evans, United States District Attorney for Minnesota, died suddenly from heart disease on the balcony of his home in Kenwood. Mr. Evans was 47 years old. He was a prominent candidate before the legislature last winter to succeed Senator C. K. Davis in the United States Senate, but was defeated by M. E. Clapp of St. Paul. He was in excellent health up to a few hours before his death.

**JUST  
ARRIVED**

The  
Newest  
The  
Best

The only  
Perfect  
Shoe for  
Men, at

**\$3.50**

**BOSTONIAN**

Have you ever worn  
them? If not, we  
want a chance to fit  
you with the finest  
shoethat skilled work-  
men can put together.  
The price is within  
reach of all. Every  
style, every leather  
you can name. One  
Price **\$3.50.**

IN OUR  
**CLOTHING  
DEPARTMENT.**

We are receiving daily the swellest effects in fall clothing you ever had a chance to see. We can show you an outlay from \$10.00 to \$12.50 that is surprisingly fine.

Let Us Show You Our Rem-  
nant Line...

**AMOS REHBERG & Co.**  
Shoes and Clothing. Two Complete Depts.

## BORT, BAILEY & CO.

Remnants of from  
Two to Ten Yards of the  
**BEST  
PRINTS**  
AT 4 CENTS YARD.

2 cases of dark Dress Patterns  
1 case of Chambry Pink Grounds  
1 case of Dark Cardinal Grounds  
1 case of Shirting Patterns

These are all the best quality of calico and worth 6c a yard in full pieces. The patterns are all desirable, especially the pinks and cardinals for children's wear. This will also be an excellent opportunity to secure prints for bedding as there is hardly a pattern but what we can furnish 50 yards of. If you have use for these prints, don't put off the buying, for when this lot is gone, it is hard to tell when we will be able to secure more

Remember The Quality And Styles Are The Best And  
The Price Only 4c a Yard.

**BORT, BAILEY & CO.**
